Light for better living

Light is the harmonious and silent composition that paints the final mood of a scene — Light conditions us, sparks emotions in us, and accompanies us at all times. Light is that discreet presence that, in an elegant and unquestioning manner, becomes the star of all scenes imaginable.

North American location

To offer excellent service to our clients we have an office and warehouse in Atlanta, GA. Stock is available for quick shipments and our local and international team are ready to help with any of your needs.

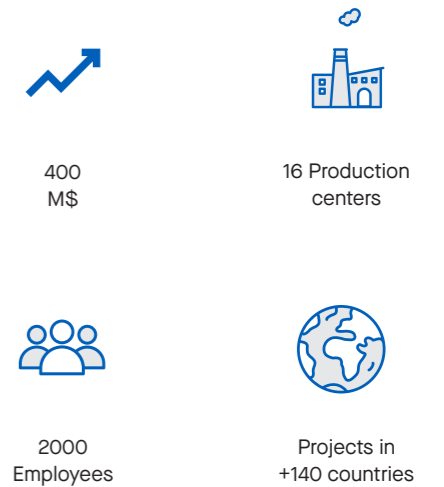

Brand Corner

Our products, distribution and service in North America are managed by Bover USA, by a team that has extensive experience and vast knowledge in products and applications for the market. LedsC4 and Bover belong to Brand Corner, a dynamic and entrepreneurial family-owned group of industrial companies founded in 1987, with an extensive international presence and global business vision.

Brand Corner relies on an international team of more than 1500 professionals developing projects all over the globe, bringing together more than 15 companies that operate in sectors as diverse as lighting, furniture, construction, small household appliances, security seals and systems, sanitary equipment, oil and gas, plastic injection and packaging.

Proximity and sustainability

The history and development of LedsC4 is closely tied to La Segarra, a plateau in the province of Lleida, surrounded by crop fields, and pine and holm oak groves. Such a natural environment strengthens the foundations of a company that involves its employees in a common goal, fostering a friendly, inspiring working environment. Furthermore, we are working towards fulfilling the seventeen Sustainable Development Goals (SDGs) defined by the United Nations in 2015. In this regard, at LedsC4 we're carrying out a number of specific actions, such as reducing our carbon footprint through the installation of lighting with LED presence detection sensors, using green, sustainable packaging, reducing the use of paper in transactions, load sharing to make transportation more sustainable, simulating natural light in the workplace, fostering compliance with the 5S to improve work conditions, using sustainable materials in our products and developing socially committed actions with independent entities.

Tubs Modular

Nahtrang Studio, 2020

Modularity — Tubs Modular seeks ways to structure open spaces spatially, to create lattice shapes with air and light, and linear shapes that enhance the roominess of a space. A very visually appealing family, it plays with the lines within a space. As the piece takes shape, it becomes a living element capable of infinite expansion, but also be designed in smaller versions and adapted to smaller spaces. Tubs Modular is a highly flexible and technically sophisticated family of products, ensuring maximum user control within a slim profile.

Limitless configurations and combinations.

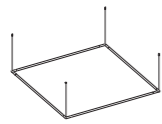

Fixing system for pendant structures.

DISTANCE	WIRE GAUGE
49 feet	AWG15
82 feet	AWG13

Maximum distance between the mini recessed canopy and the power supply, depends on the section of the cable.

Circular

Benedito Design, 2018

The expression of contemporary design — Circular combines design and architecture to create lighting for spacious settings. A collection of circular rings with a premium contemporary design that offers maximum versatility, blending formats, finishes and light directionality.

Customizable installations through special projects.

Features three different light directions: inward, outward and downward.

Three finishes available: white, black and gold.

Geometric

Benedito Design, 2023

Architecture can't be understood without geometry and vice versa — Geometric is a modular collection of maxims with the ability to adapt light to any space. Thanks to the possible combinations of its components, figures can be designed to fit in with any project, and the light can be directed and shaped.

WS6Z-00V9AZRU05U

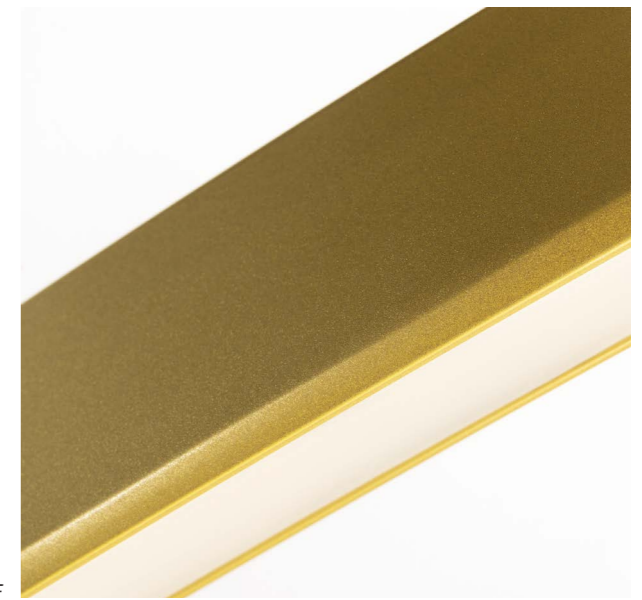

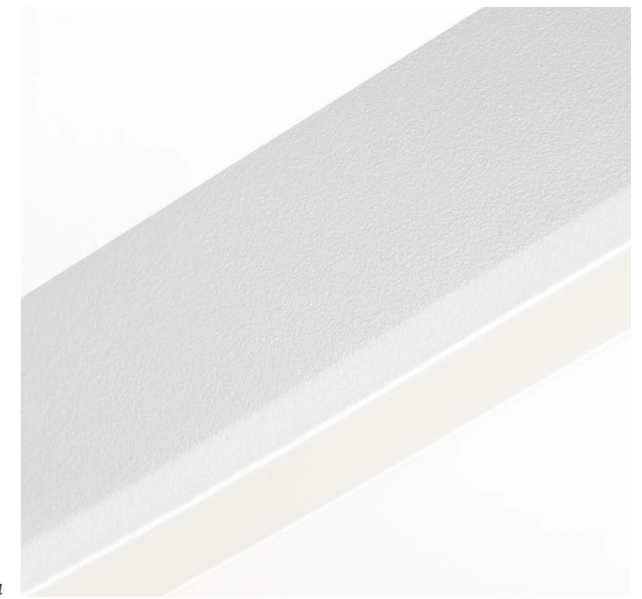

Each structure is available in different sizes to seamlessly fit in with the space.

Levels

Nahtrang Studio, 2023

The charisma of a balanced luminaire — Levels boasts an innate charisma, in any of its compositions, not only thanks to the fineness of its shapes, but also for the warmth of its light and the balance it transmits, serene and undisturbable. It has three possible composition levels with three densities, which can be used individually, double or triple, playing with the opacity and transparencies.

The glass, carefully **hand-blown**, comes in different levels of opacity, offering an array of transparencies.

+ Levels

All models are available in a green, smoked or amber finish.

Candle

Benedito Design, 2017

Reinterpreting a classic — This delicate luminaire is a reinterpretation of a classic chandelier, adding a modern twist with decorative accessories that bring a touch of distinction. With different sizes, finishes and compositions, Candle is an ideal solution for both large spaces that need a chandelier option and for more minimalist settings in which a dose of elegance and good taste is sought, achieved both by the stylish profile and the warm, comforting lighting effect that adapts to the needs of the environment.

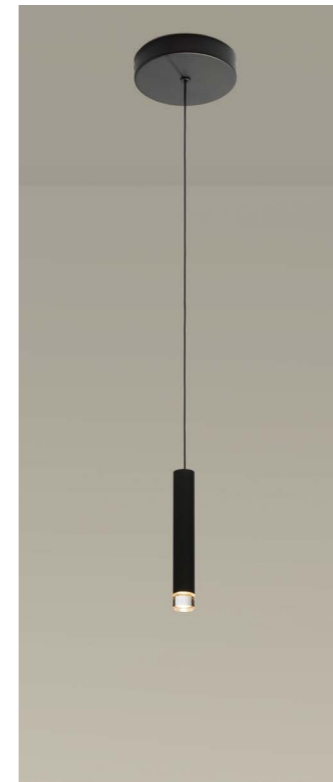

Available accessories: black and gold finishes.

Color customization upon request.

Two size options: 6 1/2" and 12 1/2"

Ilargi

Iratzoki Lizaso, 2018

Natural elegance — Created by Basque designers Iratzoki and Lizaso, Ilargi is a perfect combination of warmth and timeless, functional design. Its traditionally blown glass is highly stylish, combining with solid hardwood. Its soft, pleasant light makes it perfect for residential use or public spaces, helping it to devise comfortable, natural settings.

Finishes in solid wood: dark and clear ash.

Three sizes available.

Voiles

Céline Wright, 2017

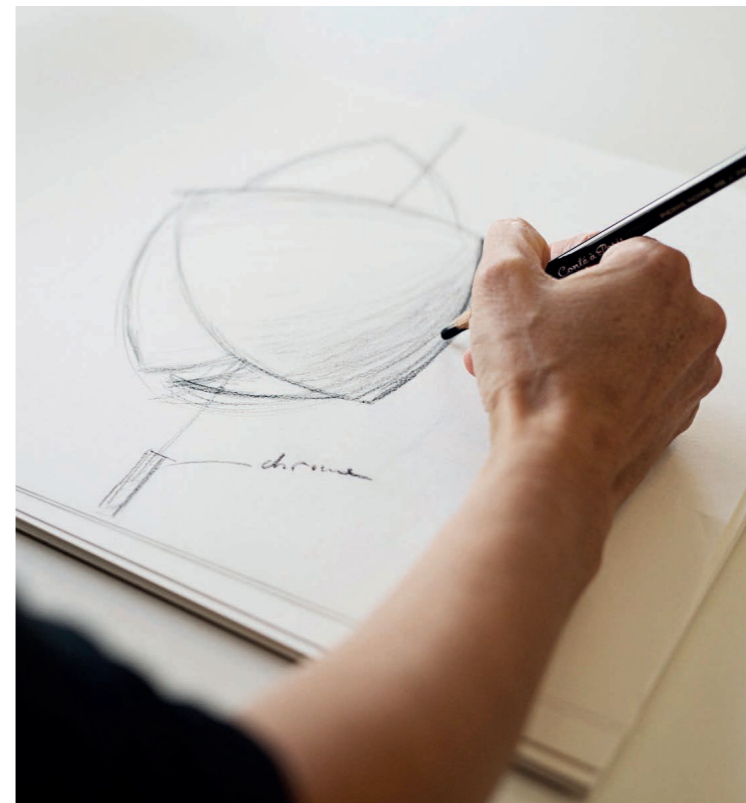

Craftsmanship in movement
— Voiles pushes the envelope of contemporary design for large spaces with a style of sculpture far removed from conventional materials and shapes, opting for traditional craftsmanship. On one hand, its asymmetric shape provides a different vision depending on your position. On the other hand, the Japanese Washi paper gives the piece a lightness that allows constant movement. Together they create a poetic living piece that makes any space more beautiful.

Overlaps of layered paper.

Handcrafted process — Washi paper is handmade with an organic compound based on plants and fabrics. The origins of this age-old technique can be found in Japan in Buddhist temples. The designer Céline Wright handmakes the paper for Voiles using a technique that is as complex as it is exceptional. The outcome is unique, exclusive luminaires.

Dew

Yonoh, 2020

Compositional freedom — Dew explores a lightweight, ephemeral beauty. With its strong technical nature that blends well with its poetic focus, Dew is an organic and linear configuration shaped by a line of oval light points connected by aluminium pieces at varying distances. With its vertical and horizontal versions, the collection allows for various angles and combinations.

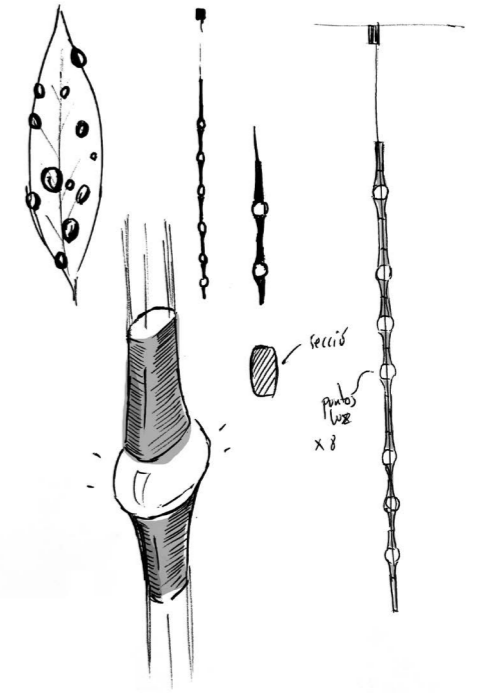

Compatible with installations that require large drops.

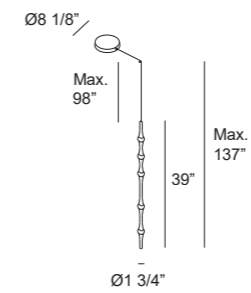

“Dew explores light and ephemeral beauty: like dewdrops or spring rain.”

Invisible

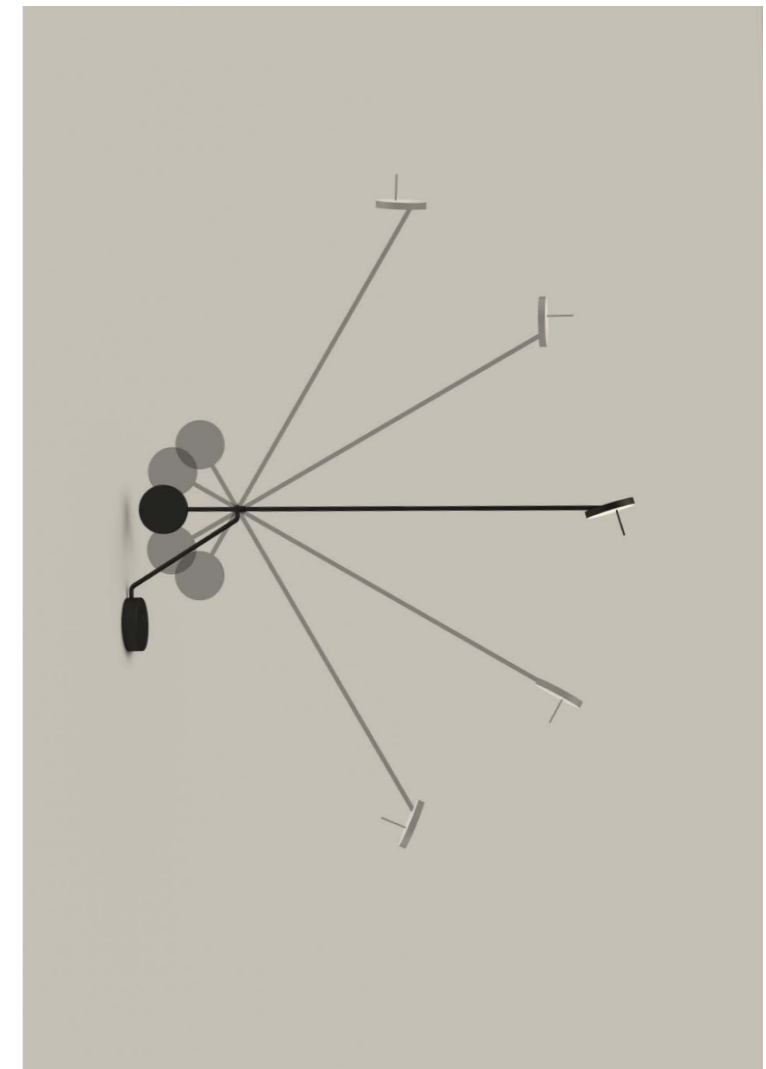

Francesc Vilaró, 2016

Light movement — Invisible is synonymous with freedom of movement, both of the axes of its Structure and of the head, which allows users to direct the light beam as needed without altering the compositional richness of the environment. Available in three pendant versions, and wall fixtures, this iconic collection has been awarded on several occasions with prestigious acknowledgements from the world of design.

Winner of the German Design Award in 2016.

Light movement.

The rotating head allows the light to be oriented.

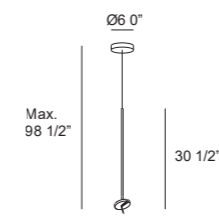

The wall light version is the perfect solution for spaces that require a directed and controlled light point.

Plat

Nahtrang studio, 2021

Smoothness and elegance — Plat steals the show without aiming to be the center of attention, given its traditionally blown glass in soft tones. Subtle and enticing, this collection stands out thanks to its simplicity and the smoothness of its design.

30% green tone.

50% smoked tone.

Attic

Nahtrang Studio, 2019

Compositional richness —

Attic is a modular, contemporary collection formed by two lampshades, one of which is conical and the other cylindrical, and it's presented with a hanging system that can be used independently or in conjunction with other pieces.

Attic achieves inviting settings by playing with the position of its cables and casings, with infinite compositional and painting possibilities available.

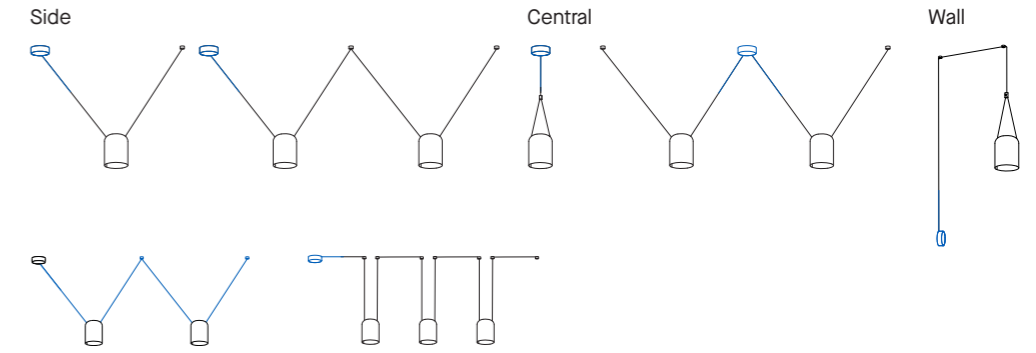

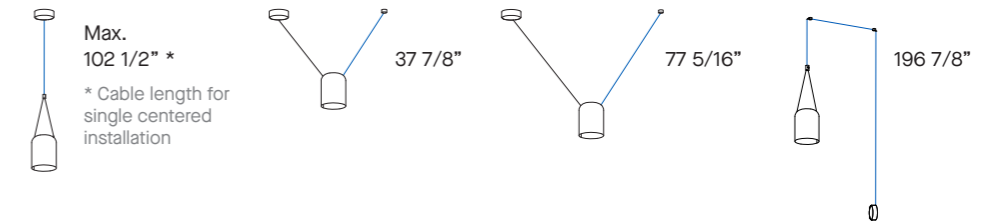

Images do not show the North American backplate.

Super Attic

Nahtrang Studio, 2021

Strong visual presence —
The modular Attic collection is
extended thanks to the arrival of
the family's largest member:
a sizeable, conical lampshade that
takes unbridled ownership of the
space, granting it presence and
attention to detail.

Image does not show North America backplate.

Cocktail

Francesc Vilaró, 2018

Iconic and suggestive — Cocktail is an iconic piece that has been awarded the iF Design Award. Francesc Vilaró drew on balance, industrialisation, innovation and aesthetics to create a portable lamp that creates atmospheres that adapt to every need, thanks to its directable head and dimmer with four levels of brightness.

Winner of the iF Design Award 2021.

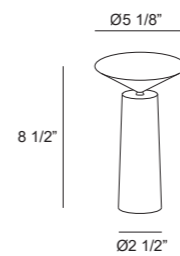

Touch Dimming on the base with 4 levels of regulation (100% - 10h, 75% - 12h, 60% - 18h, 25% - 30h).

Big Bang

Francesc Vilaró, 2015

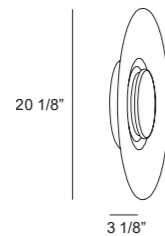

A bold presence day and night — The circular shape of the Big Bang components and its textured white and gold finishes in the centre allow the piece to rouse emotions while switched both off and on. When switched off, it embellishes the room with the harmony of its shapes, whereas when turned on, it provides an indirect light with a very special effect that catches the eye.

Bloom

Nahtrang Studio, 2023

Relaxed design and simple shapes — Simplicity and functionality are often the best letter of recommendation. Bloom features a relaxed design with balanced shapes, allowing it to stand out in the space precisely because of the softness of its profile. Its technical features, including a certified IP44 rating, make it a suitable luminaire for bathrooms and partially outdoor areas exposed to a certain level of damp.

Images do not show North American backplate.

Sturdy elegance — With smooth, discreet lines, Miso is an essential ceiling light that adapts to any space. Available in two sizes, it has two color combinations in its indoor option. The remarkably matte finish of its diffuser is achieved thanks to the artisan painting process applied in our factory.

Image does not show North American backplate.

Organic

Àlex & Manel Llusçà, 2019

The soft and harmonious silhouette — Is inspired by the organic shapes of flowers and leaves. Its slightly curved lampshade, featuring a gold interior, subtly and naturally blends into the space.

Moal

Francesc Vilaró, 2021

Outdoor collection with a contemporary and timeless design that is made of concrete — Moal is perfect for creating compositions and providing a space with inviting, warm lighting. It comprises a wall light and two bollards that can also be used as furnishings. Especially designed for terraces and gardens in hotels, restaurants or residences, Moal creates pieces that have real presence and that play with light and shadow.
